KNARRTEK CAPAPABILITIES DECODED

KnarrTek®

Who We Are

With 30+ years of experience, KnarrTek delivers traceability, systems integration, and real-time visibility solutions to government, medical, manufacturing, and logistics organizations. Our goal is to turn disconnected data into intelligent, actionable insights.

SERVICES

BellHawk: Real-Time Materials Tracking

Capture and track data as work happens:

- Barcode/RFID scanning for jobs, materials, and inventory
- Real-time visibility into WIP and inventory
- FDA CFR 21 Part 11 and GS1 compliant
- Scalable from local operations to multi-site deployments

BellHawk reduces errors, cuts costs, and boosts productivity.

MilramX: Automated Data Exchange

Automate data exchange with external systems:

- Integration with ERP, CRM, and third-party systems
- Over 90% pre-built or auto-generated code for rapid deployment
- Supports EDI, EPCIS, REST, SOAP, and more
- Runs on Windows, cloud platforms, or IIoT devices
- Real-time alerts and business intelligence for decision-making

MilramX ensures reliable, error-free data flow, enhancing supply chain transparency.

Integration Services

Custom solutions and support:

- Custom solutions tailored to unique workflows
- Agile pilot projects or phased implementation plans
- Seamless integration with existing systems
- Ongoing support through KnarrTek's expert staff

We work as a subcontractor to system integrators or directly with client IT and operations teams to deliver measurable ROI.

Why Choose Us

KnarrTek gives you the tools, expertise, and support to achieve real-time visibility, improve operational efficiency, and ensure data reliability:

- Proven Track Record: With over 100 successful system deployments led by Dr. Peter Green, our solutions are trusted across industries for their reliability and results.
- Flexible, Scalable Pricing: Our software starts under $500/month for small businesses and under $1,700/month for larger operations, with subscription or OEM licensing options to fit your budget and scale.
- Industry Reach: KnarrTek supports growing sectors like manufacturing, food processing, pharmaceutical, medical, defense, and construction—offering solutions tailored to complex compliance, traceability, and integration needs.
- Comprehensive Support: Gain access to expert guidance, detailed sales collateral, and in-depth training to ensure smooth implementation and long-term success.

Join our growing network and gain access to complete, scalable solutions. Whether you're looking to transform your operations or expand your service portfolio, KnarrTek delivers proven results you can count on.
